AMENDMENT

In response to the Office Letter mailed on May 1, 2002, please amend the claims  
as follows:

D1 4. (Twice Amended) The process of claim 12, wherein the separating of the  
mevinolin is carried out at a pH between about 2.2 and about 2.

D2 6. (Twice Amended) The process of claim 15, wherein said additive is  
ethanol, or ethylene glycol.

D3 12. (Amended) In a process for preparing mevinolin by fermentation of a  
culture medium, which includes dissolving mevinolin formed into the culture medium  
obtained by cultivation of at least one of an *Aspergillus terreus* and *Aspergillus obscurus*  
strain, and separating the strain from the culture medium to obtain a separated culture  
medium, separating the mevinolin from the separated culture medium, and recovering the  
mevinolin product, the improvement which consists essentially of carrying out the
